NO. 3

PRAISE GOD! THE SHOOTING IS OVER!

Our prayers have been answered! God has granted a colossal miracle! Even our military and political leaders are calling it a miracle!

Imagine: A casualty rate so low, we may have even saved lives by sending 530,000 young people to the war in the desert. With an average age of 27 years, if they had been in America, driving on our highways, there would probably have been higher figures than these listed by the Pentagon:

<u>U.S. CASUALTIES</u>			
	<u>Killed</u>	<u>Wounded</u>	<u>Missing</u>
Casualties: Air War (Jan 17-Feb 23)	23	34	39
Casualties: Scud Attack	28	90	0
Casualties: Ground War (Feb 24-27)	<u>11</u>	<u>89</u>	<u>5</u>
Total Casualties	79	213	44

God did wonderful things. He caused the winds to blow in the reverse direction from normal for this time of year in the desert. Therefore, Saddam Hussein could not use poison gas, it would have blown back on his own troops!

Our American forces were at their fighting best. No booze, no drugs, no carousing, no "war babies" this time. The delinquency rates for our soldiers was down to one-third usual for anywhere else they are assigned in the world! Their minds were sharper, their conscience clearer than ever before! This is God's reward for living a clean life, whatever the circumstances. God's truths are honored whenever, wherever they are applied, PTL!

But most especially there was a move of God, a spiritual awakening among our American troops! America's Christians prayed as never before, and God protected, blessed, saved and delivered.

Let us not miss seeing how our God indeed blessed us. Let us give Him the glory. (Yes, we had the best equipment, the high-tech, etc.), but God moved and gave us the victory so quickly that our leaders are amazed, astounded, PTL!
